Discussion Items

I. Approval of minutes

- a. Motion by: Approve Minutes 01/11/23

II. Old Business -

- a. Discussion Joint OFCA / OAPFF educational effort on the risks of the use of Medical Marijuana, CBD products and Issue 2.
- b. Discuss the OFCA and OAPFF Board discussions following the committee's January meeting.
- c. Determine future direction.
- d. BWC Attorney response on Medical Marijuana. See link below.

I am not aware of any discussions at this time contemplating changing our policies in regard to medical marijuana. As for question #2, that is correct that marijuana is treated the same as alcohol. Here is a link to the rebuttable presumption in place:

Note that the language addresses both alcohol and marijuana (this was in place before recreational marijuana became legal).
